

## Toppers Speak ...

### How I did it?

I had taken the Grand Masters Package of FIITJEE. I found it really helpful and beneficial. It had questions of all varieties and difficulty level, which made it a 'golden key of success'. It is really recommended for all high fliers.

I also had the Rankers Test Paper Files. The questions papers therein helped simulate an actual exam environment & gave me practise in solving maximum questions in minimum time, which thereby helped me grab AIR-47.
