

## Toppers Speak ...

### How I did it?

I, Pulkit Agrawal secured AIR 58 in JEE Advanced 2018. I was looking for a test series and I joined FIITJEE All India Test Series (AITS) because I had heard about its quality papers and variety of questions.

The AITS improved my exam temperament and provided me new questions. The AITS papers prepared me for decimal type questions which came for the first time in JEE Advanced 2018.

Analysing my mistakes and properly revising all topics helped me in the JEE exam.
