

## Toppers Speak ...

### How I did it?

My mother being an engineer prompted me to choose this career. Also IIT is the premium institute in our country. My family encouraged me to prepare for IIT-JEE. Initially my teachers at school were not able to clear my doubts in science. So I decided to join a coaching institute for learning concepts in science and math. I joined FIITJEE, being a natural choice for preparing for IIT-JEE. My parents and teachers of FIITJEE guided me in my journey to selection in IIT-JEE. FIITJEE Correspondence course is complete in all aspects. It helped me to clear my doubts and AITS made me more confident in cracking IIT-JEE. The problems helped me increase my speed. Once you decide to go into IIT-JEE, your focus should be only on it. It becomes easy once you are focused, determined and put all attention on your goal. RSM is a meticulously designed program. I would like to thank FIITJEE for providing me all the help I needed to crack IIT-JEE. The AITS really helped me to take my game to a whole new level. Thank you! FIITJEE
