How I did it?

I was a part of AITS 1 year program for 12th grade students under FIITJEE Pune Centre. I will say that I am very satisfied about the AITS program, be it the management at the centres or the quality of tests and solutions. The analysis sessions also helped me improve upon my mistakes. I had chosen FIITJEE AITS on the recommendation of few of my seniors as the paper difficulty is set above average JEE Advanced level, which helped us improve. Also, due to the COVID-19 Pandemic, tests were promptly shifted online which was appreciated. Definitely Shubham 17/10/20 would recommend AITS!
