How I did it?

I am Ayush Rajesh, and I secured AIR 78 in the IIT-JEE Advanced 2020, and AIR 115 in IIT-JEE Main 2020. I was enrolled with FIITJEE Mumbai for the One-year All India Test Series (AITS). Since I was attending a good, yet relatively local coaching institute, I enrolled in the AITS to get a good indication of where I stood at an All India level.

The AITS proved to be very effective, because of the high level and variety of questions. The difficulty of the tests prepared me for the intense atmosphere of the actual Main/Advanced exams. Besides the Full Tests, the CRTs were also very helpful in revising concepts, especially during the extended lockdown period. The Test Series was a learning curve for me, as I would come back from each test, having learnt something new, due to the depth and variety of the concepts covered in the tests.

I would seriously recommend AITS for all aspiring JEE students, as it prepares one strongly for the real examination, both mentally and conceptually.
