

Toppers Speak ...

How I did it?

Since I was young, I had a thirst to prove myself. That, along with my genuine interest in computers since I was young prompted me to start studying for JEE. I started in 11th and was joined in the Classroom program at Champion Academy. ~~Upon the return~~ For the better part of my 2 years, I was guided by my parents and my teachers towards excellence. They helped me overcome all my challenges, especially addiction to gaming & procrastination.

After JEE Main, my professors recommended me to join FIITJEE's Grand Master Package Programme mostly due to its excellent and extensive library of questions. I thoroughly enjoyed every moment while solving the well-crafted questions (especially Physics). It helped me to build & fortify my existing foundations and for JEE as well as BITSAT and other engineering entrance examinations.

Thank you FIITJEE!
