

## Toppers Speak ...

### How I did it?

I am Aniket Suhas Borkar, a student of FIITJEE All India Test Series (AITS) Program. I had a keen interest in science and technology and hence decided to pursue IIT-JEE.

I joined the AITS program in class 12<sup>th</sup> as I knew the excellent results which students of this program had achieved. The AITS program helped me a lot to achieve a good rank in JEE Advanced. It gave me exposure to high quality JEE-level questions, and improved my time management. AITS also allowed me to compete at an all-India level, and hence I understood where I stood. The regular AITS-CSCP sessions helped me clear doubts related to the AITS papers. The faculties in these sessions were excellent and motivated me to keep on improving myself.

Due to the excellent standard of AITS program, I did well in JEE Advanced 2021. I would like to thank FIITJEE as I owe my success to AITS. I would definitely recommend it to all aspirants.
