

My 2 years journey of IIT from my city to IIT Kanpur CSE was made easy by efforts of my teachers, parents & my mentors. They helped me throughout the journey. I was blessed to have so good persons which causes for me.

My journey was simple. I was always regular with my studies. I never missed a class & any test. I always managed proper notes & always completed my work on time.

I never hesitated to ask someone for help. My friends used to discuss problems with me. I also discussed my doubts with them. We always had a healthy competition between us.

In last months of preparations I revised all concepts gave an sufficient amount of tests and managed my time well. I was regular & honest with my studies.

I analysed my tests consulted teachers & attended doubt classes of FIITJEE as well. I made an analysis of my time for each subject & managed it so that I could attempt the whole exam.

It was 2 years hard work & my parents & teachers blessings which made me achieve this rank.
