

Toppers Speak ...

NAME :- Advait Prashant Rege. (student of
(JEE Adv. \Rightarrow AIR-357 FIITJEE AITS
JEE Mains \Rightarrow AIR-1128 Correspondence
KVPY SX \Rightarrow AIR-265) program).

How I did it?

I had a lot of interest in mathematics & Science in my school days. I used to enjoy solving problems that involved maths & logic. This prompted me to prepare for IIT-JEE. My family was very supportive throughout my JEE journey. They took good care of me & my health as I used to neglect it at times due to studies. A major challenge that I faced was I did not have a good sleep routine. At times I used to sleep much less than required which used to affect my studies. I started preparing for IIT-JEE since class 8th. Many of my seniors & reviews on Google were that Correspondence Program of FIITJEE is very good & also many previous toppers had joined it which is why I decided to join it. I think having interest in Maths & thinking logically was an important personality trait that assisted me in my prep. Due to online classes, it was difficult for getting my doubts resolved. The CSCPCum Doubt Clearing sessions were excellent in terms of quality & helped me in filling some loop holes in my concepts. The FIITJEE Correspondence program helped me improve my problem solving skills & also improved my exam temperament. Also the problems were of high level & gave a feel of solving an actual JEE-Advanced Paper. This also helped me in other exams like KVPY, JEE Mains, etc. Be consistent and Always stay motivated. It will be a journey full of ups & downs but the ending will be a happy & satisfactory one if you put in the right amount of efforts. FIITJEE AITS is according to me the best test series for JEE-Adv. Its analysis & rank system was also very helpful.

Advait

(Signature with date)

I could not have achieved this rank without FIITJEE.

Do not fold the sheet. Put it straight in the enclosed envelope.
