

Toppers Speak ...

How I did it?

Hello,
My name is Prasham Walvekar. I had enrolled in the Fiitjee AITS in order to boost my preparation for JEE Adv. It was always tough for me, however I feel exposure to the tough and brilliant papers of AITS helped evolve my thinking abilities and stretch my brain to its limits. Fiitjee AITS helped me to get accustomed to the toughness level of JEE Adv, to the extent that I was able to solve the actual paper to the best of my abilities. I feel that Fiitjee AITS plays the best role in mental preparation for the entrance exams. Also, followed up by brilliant and accurate test analysis with many features and accurate solutions, with extra doubt sessions to discuss the test papers, proved to be the icing on the cake.

To juniors and fellow JEE aspirants, I highly recommend joining Fiitjee AITS, arguably the best test series in the country!! Thank you Fiitjee for playing such an important role in my success!!
