

Toppers Speak ...

How I did it?

With regular studies and practice, I was able to achieve AIR 3 in IIT JEE.

While reading any text, I marked the lines which I was not aware of and which I may forget after some time. Similarly, while doing any question bank I marked the questions which involved higher intellectual skills. Doing this made my revision much easier in which I could revise only those lines and questions which I already marked. This helped me very much.

Also I strived to improve my ^{concepts} and accuracy and ~~never~~ ^{made my goal} never ~~to~~ to achieve a high rank in JEE.

I ~~was~~ patiently worked very hard in these 2 years and wrote final examination with full concentration and confidence. I think FIITJEE AITS programme has helped me a lot in improving my speed and accuracy and achieving my goal.
